

Neighbourhoods *for a*
Sustainable Vancouver

COMMUNITY or COMMODITY?

What kind of Vancouver do you want?

Under Gregor Robertson and the Vision Vancouver City Council, the emphasis is too much on "commodity" and too little on "community". There's a growing consensus across Vancouver that City Hall is out of touch with the balance of public opinion and that it's time for change.

As a registered Third Party Sponsor for the 2014 civic election, NSV's aim is to give a political voice to that view and to help make it happen by advancing a strategic slate of candidates for Mayor and City Council that:

- Appeals to a broad cross-section of voters,
- Avoids a single-party majority
- Has the best chance of being elected, and is
- Representative of the following set of basic principles that NSV believes are essential to Vancouver's future as a truly sustainable city of diverse and livable neighbourhoods.

NSV- Basic Principles

1. Make City Hall Open and Accountable
2. Advance Campaign Finance Reform
3. Value Vancouver as Community-not Commodity
4. Respect Community Supported Local Area Plans and Community Visions
5. Support Neighbourhood-based Planning
6. Enable Community Initiative
7. Promote a Diverse and Sustainable Economy
8. Advance Social Justice and End Homelessness
9. Make Real Progress on Housing Affordability
10. Protect and Expand Rental Housing
11. Support the Arts, Film, Culture and Tourism
12. Protect Heritage Buildings and Viewscapes
13. Improve Public Transit
14. Reject Development-Based Funding Models for Public Transit
15. Support Active Transportation
16. Promote Environmental Sustainability
